Sondekoppa, Bengaluru North, Karnataka.

Summary

I'm a frontend developer with hands-on experience in backend technologies, allowing me to create comprehensive web solutions using the latest tools and techniques.

Work Experience

○ Mphasis Software and Services Pvt Ltd Apr 2023 - present

Software Developer

- Extensive experience in crafting UI web applications using a diverse tech stack including HTML, CSS, JavaScript, AJAX, React JS, Bootstrap, Typescript, and more.
- Proficient in consuming REST APIs in both services and components, leveraging dependency injection, and conducting API testing using Postman.
- Extensive expertise and proficiency in developing intricate single-page applications using React, Redux, Axios, webpack, mat UI, Git, Jira, etc.
- Collaborated seamlessly with web designers, backend developers, and UX designers across all stages of product development, from design and coding to testing and enhancement
- Skillfully construct React modules, services, and routing components, demonstrating proficiency in developing feature-rich grid systems with sorting, pagination, and filtering functionalities.
- Collaborate closely with UX designers, Product Owners, Scrum Masters, and Team Leads to provide valuable insights and ensure a seamless translation of design concepts into functional, user-friendly features.
- Ensure the scalability of the UI by optimizing loading speed and performance, contributing to an enhanced user experience.
- Keep Project Managers and IT Leads informed about the overall progress of projects and teams, fostering effective communication and collaboration.
- Demonstrate the ability to work within tight deadlines, effectively prioritize tasks, and execute them with precision.

○ Cognizant Technology Solutions (CTS) Feb 2022 - Jun 2022

Programmer Analyst Trainee - Internship

- Skilled in ADM FSE with certification, adept at creating web apps from scratch (UI, Backend, Database).
- Led as Team Lead, offering support, feedback, and addressing technical queries for the team.
- Actively involved in project HLD, Wireframes, Database Designs, and Unit Test case documents.

Key Projects / Involvements

Technologies Used: React, HTML, CSS, Bootstrap, Java, SpringBoot, MySQL and Javascript.

m Aadhar App : <https://github.com/chaitra-bhat20/m-Aadhar-Application>

Covid Vaccination App: <https://github.com/chaitra-bhat20/vaccination-center-app>

Event Mgmt Portal: <https://github.com/chaitra-bhat20/event-management-app>

Ecom web: <https://github.com/chaitra-bhat20/Ecommerce-Website-Automation>
